|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | K13   | 1740  | 1820   | 620   |

#### **COLOUR CHOICE**

Matrix screening and fencing products are available in the range of colours shown below. Colour names in brackets are those of the equivalent Colorbond® steel roofing/fencing colours.

NOW YOU SEE IT

Note: The colour chart above may not exactly match the actual colour of the product and should be used as a guide only.

## COVER-UPS

# The Lattice that Lasts!

Matrix Cover-Up is a quality Australian made product that will give

## Tools Required

you many years of maintenance-free service.

ower Drill Clamps

Rubber Mallet

## Product Description

1-sided Cover-Ups come pre-assembled and ready to be secured to a fence or wall along one edge as shown in Fig. 5 and to the base surface as shown in Fig. 7.

2-sided Cover-Ups come with one panel pre-assembled with the frame. The second panel has to be assembled as detailed in steps 2-6 below. The larger of the two panels should be secured to a fence or wall for maximum stability as shown in Fig. 5 & 6. The smaller panel should be secured to the base surface as shown in Fig. 7.

Fig. 2

3-sided Cover-Ups come with one panel pre-assembled with the frame. The other two panels have to be assembled as detailed below (follow steps 2-6 for each panel). 3-sided Cover-Ups should be secured to the base surface or a wall/fence unless constant access is required.

# ASSEMBLY OF SIDE PANEL AND FIXING TO PREASSEMBLED PANEL (FIG. 1)

**Note:** Remove the parts from the packaging and place them on a clean soft flat surface before commencing assembly.

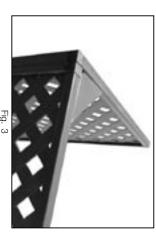

- 1. Slide long 'C' Channel over long side of lattice panel.
- 2. Push corner plugs into both ends of long 'C' Channel.
- Slide short 'C' Channel lengths over ends of lattice panel and knock firmly into corner plugs with rubber mallet.
- Knock corner plugs into each end of fixed 'C' Channel on pre-assembled panel.
- Knock side panel into corner plugs in pre-assembled panel.

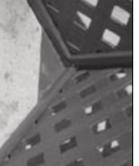

## FINAL ASSEMBLY AND INSTALLATION

- Check which will be the bottom of the unit before attaching the corner braces.
- Fit the corner brace with folded edges INSIDE the bottom corner of the unit using clamps to ensure that there is a 90° angle between the panels.
- 8. Attach the FLAT comer brace UNDER the bottom corner of the unit with the supplied screws as shown in Fig. 4.
- Fasten the corner brace with folded edges INSIDE the top corner of the unit using clamps and then attatch it with the supplied screws as shown in Fig. 2 & 3.
- 10. Place the unit in position and then secure to a supporting fence or wall using the flat bracket as shown in Fig. 5 and to the base surface using the angle bracket as shown in Fig. 7.

Note: For maximum stability always secure the long side to the supporting wall or fence. The return should be the shorter side

# INSTALLATION INSTRUCTIONS
